EDUCATION

EAST TENNESSEE STATE UNIVERSITY

Master's of Business Administration - Business Analytics

Cumulative GPA: 4.0

Relevant Coursework: Applied Corporate Finance, Data Management, Decision Support Systems, Data Analysis

Johnson City, TN

Oct 2024 - Oct 2025

EAST TENNESSEE STATE UNIVERSITY

Bachelor of Science - Digital Media

Graduated Cum Laude | Dean's List Aug 2019, Aug 2020 - May 2021

Johnson City, TN

Jan 2018 - May 2021

PROJECTS

Quantum Retail Strategy & Analysis - Python, Pandas, Matplotlib

Feb 2026

- Cleaned, transformed, and analyzed over 264,000 retail transaction records to identify trends in purchasing and customer segment behaviour through statistical and market basket analysis.
- Performed data validation and cleaning by identifying and correcting misclassified products by analyzing keyword trends, and removed outliers through statistical analysis.
- Conducted two-sample t-tests to evaluate pricing differences across consumer segments, identifying statistically significant price variation between mainstream and premium/budget chip brands for young and middle aged singles and couples.

Discount & Customer Sentiment Reporting System - Power BI, DAX, Excel

Dec 2025

- Developed and implemented a new reporting system using Excel and Power BI to monitor discounts, credit issuance, and customer sentiment trends across all stores, leading to heightened revenue protection.
- Reduced discounting errors by 13% by increasing visibility and accountability while allowing management to monitor trends.
- Presented insights to stakeholders, leading to a revamped crediting system with higher return rates and credit redemptions.

Resource Optimization KPI Dashboard - SQL, Looker Studio, Excel

July 2025

- Spearheaded project development process to create animal shelter dashboard utilizing Austin's animal shelter data, defining KPIs, finding insights and trends in intake and outcome patterns, and forecasting resource/staffing optimization.
- Developed custom SQL scripts and processes to clean and join over 130,000 rows from intake and outcome datasets, matching time stamps across varying time periods.
- Identified seasonal intake trends, geographic hot spots, and internal adoption bottlenecks to support staffing and adoptions.

WORK EXPERIENCE

COOTIE BROWN'S

Manager/Server

Johnson City, TN

Feb 2024 - Present

- Managed a team of 31 employees, with daily average sales revenue averaging around \$10,000.
- Trained and onboarded front-of-house staff and new management on POS systems and service standards, contributing to improved team performance and higher quality expectations.
- Developed a new reporting system that tracked discounting trends and customer credits, leading to higher revenue retention.

THE THIRD FLOOR INC.

Previs/Postvis Artist

Atlanta, GA

Jan 2022 - Jun 2023

- Facilitated the delivery of creative and technical sequences on time and within budget, directly impacting projects with minimum budgets of \$125 million.
- Collaborated cross-functionally with directors, production teams, and technical leads to ensure stakeholder needs and expectations were met.
